## Property Development Funding in the UK

Whether a major refurbishment, new build or a 'ground up' development we can offer finance tailored specifically to your project and individual requirements.

We can source funding for residential, commercial, industrial and mixed-use projects as well as part-finished developments.

### Funding Structures Available

- Standard development facilities as a first charge
- Mezzanine or 'top-up' debt as a second charge
- 100% funding to acquire a development site and build out to completion
- Joint Venture (JV) lending

### Bridging Finance for Property Development

For smaller development projects, bridging finance is often used to 'bridge' a gap in funding.

This can also be used for both light and heavy refurbishment works, from properties requiring a change of kitchens, bathrooms and other non-structural changes to major works that may require planning permission.

We can also fund the marketing period once a development completes.
